## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments, see REMARKS, filed 7/21/2008, with respect to claims 1-12 have been fully considered and are persuasive. The rejection under 35 U.S.C. 102(b) or 103(a) of claims 1-12 has been withdrawn.
2. Applicant's arguments, see REMARKS, filed 9/12/2008, with respect to claims 1-12 have been fully considered and are persuasive. The rejection under 35 U.S.C. 112, second paragraph of claims 1-12 has been withdrawn.

### ***Allowable Subject Matter***

3. The following is an examiner's statement of reasons for allowance: the claims are directed to a dosing dispenser of soft elastic material for spherical items. The apparatus claims an inner tubular section attached to an operating section of the dispenser, the tubular section contains a passage of cross-section larger than the items, an exit opening that is deformable by application of pressure on the sides of the dispenser, retaining cams on its end and oriented toward the opening, and a cut partially separating the tubular section so that two circumferential sections of the tubular section are movable relative to each other. This, in combination with the rest of the claim language, provides a structure which is both a novel and useful addition to the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
